Item 8.01 Other Events

As previously disclosed, the Company has been a party to certain patent litigation captioned *National Starch and Chemical Investment Holding Corporation, Penford Australia, Ltd. and Penford Holdings Pty v Cargill, Inc and MGP Ingredients, Inc.*, Civil Action 04-1443, U.S. District Court, District of Delaware. As previously reported, plaintiffs filed this suit on November 12, 2004 alleging infringement by Cargill and the Company of two US patents in connection with their production and sale of Fibersym™ HA starch, a product derived from allegedly infringing high amylose corn seed and starch. The complaint also alleges that the Company induced Cargill to infringe. The plaintiffs seek an injunction, treble damages, fees and costs. Cargill and the Company have filed answers denying plaintiffs infringement claims and seeking a declaratory judgment that the referenced patents are invalid and that they are not infringing.

Cargill has assumed our defense in this matter and now generally has agreed to indemnify us from out-of-pocket losses resulting from the litigation or from other litigation that might be brought based on the actions charged with infringement in the litigation.

Sale and additional production of Fibersym™ HA starch have been put on hold pending an analysis of the patent situation, which the Company anticipates will be completed during the second quarter of fiscal 2006.
