# NEWS RELEASE

#### **MGP INGREDIENTS REPORTS STRONG THIRD QUARTER 2020 RESULTS**

Consolidated sales increased 13.5% from prior year period; operating income increased 17.7%

## ATCHISON, Kan., October 29, 2020 - MGP Ingredients, Inc. (Nasdaq:MGPI), a leading supplier of premium distilled spirits and specialty wheat proteins and starches, today reported results for the third quarter ended September 30, 2020.

#### 2020 third quarter results compared to 2019 third quarter results

- Consolidated sales increased 13.5% to \$103.0 million, reflecting an increase in both the Distillery Products and Ingredient Solutions segments.
- Consolidated gross profit increased 23.3% to \$23.2 million, due to increased gross profit in the Ingredient Solutions and Distillery Products segments.
- Consolidated operating income increased 17.7% to \$13.7 million.
- Non-GAAP operating income increased 17.8% to \$13.7 million, exclusive of CEO transition costs.
- GAAP and non-GAAP earnings per share increased to \$0.61 per share from \$0.48 per share, primarily due to improved operating results.

"These quarterly results highlighted the diversity of growth across our product lines and segments," said David Colo, president and CEO of MGP Ingredients. "Aged whiskey sales experienced a record quarter while new distillate and specialty ingredients also yielded strong double-digit sales growth during the quarter. While we anticipate continued uncertainty related to the pandemic through the end of this year and into 2021, we believe we remain well positioned to execute our long-term strategic plan."

#### Distillery Products Segment - Brown Goods Sales Grew 29.2% Led by Strong Aged Whiskey Sales

In the third quarter of 2020, sales for the Distillery Products segment increased 11.4% to \$81.6 million. Gross profit increased to \$17.3 million or 21.2% of segment sales, compared to \$15.9 million, or 21.7% of segment sales in the third quarter 2019.

"We are very pleased with the continued strength of our aged whiskey sales this quarter, which equated to strong double-digit revenue growth from the prior year period," said Colo. "Our objective of maximizing brown goods profitability continued this quarter by delivering one of our best gross profit results. However, total segment gross margins were negatively impacted by approximately 350 basis points resulting from decreased barrel put-away, as we continue to align our MGP-owned aging whiskey inventory with projected demand. New customer acquisition growth for our new distillate and aged whiskey products also remains strong despite the uncertainty related to the pandemic. The long-term macro trends supporting the ongoing growth of the American Whiskey category remain encouraging.

"Demand for our industrial alcohol products as a result of the COVID-19 pandemic continues to remain elevated with pricing slightly increasing over the prior year quarter. However, volume sales for industrial alcohol were down slightly to support increased optimization and sales of white goods premium beverage alcohol– consistent with our long-term strategy. As a result, white goods sales increased 6.5% for the quarter."

#### Ingredient Solutions Segment - Gross Profit Increased 102.9%

For the third quarter of 2020, sales in the Ingredient Solutions segment increased 22.7% to \$21.3 million. Gross profit increased to \$5.9 million, or 27.4% of segment sales, compared to \$2.9 million, or 16.6% of segment sales in the third quarter 2019.

"The continued strength of our Ingredient Solutions segment and its diverse customer mix are reflected in the strong results this quarter," continued Colo. "In addition to recognizing efficiencies to improve throughput and profitability, we were also successful in continuing to optimize our product mix this quarter. Consumer trends seeking to increase the amount of plant-based protein and dietary fiber in their diets as part of an overall healthier lifestyle continue to align well with our ingredient product portfolio and underscore our confidence in the sustainability of these improved results going forward."

#### Other

Corporate selling, general and administrative expenses of \$9.5 million for the third quarter 2020 increased 32.3%, compared to the third quarter 2019, primarily due to higher incentive compensation expenses and professional service fees, which were partially offset by decreased costs related to the prior year EPA settlement.

The corporate effective tax rate for the quarter was 21.6% compared with 26.9% in the year ago period. The decrease, as compared to the prior year period, was primarily due to the release of a portion of the Company's valuation allowance.

GAAP and non-GAAP earnings per share increased to \$0.61 per share for the third quarter 2020, compared to \$0.48 per share for the third quarter 2019.

#### Conclusion

"We remain confident in our long-term strategy and our ability to align with strong macro consumer trends across the organization," stated Colo. "Our investment in aging whiskey inventory decreased this quarter to \$108.4 million, at cost. This decline was primarily driven by increased sales of aged whiskey and decreased put-aways during the quarter. We are realizing the long-term value of this inventory, as reflected in our operating cash flows, and believe we are well positioned to meet projected demand while delivering sustainable growth and value creation for the Company.

"Our brands initiative continued its momentum this quarter as consumer acceptance of our core portfolio remains strong. The launch of our Remus Repeal Reserve Series IV, as well as our single barrel offerings of George Remus® bourbon and Rossville Union® rye whiskeys during the quarter have exceeded our expectations, while infusing additional consumer excitement for our brands. We remain focused on accelerating our brands through increased distribution and sales velocity in both existing and new markets," Colo concluded.

#### **Conference Call and Webcast Information**

MGP Ingredients will host a conference call for analysts and institutional investors at 10 a.m. ET today to discuss these results and current business trends. The conference call and webcast will be available via:

Webcast: <u>ir.mgpingredients.com</u> on the Events & Presentations page Conference Call: 844-308-6398 (domestic) or 412-717-9605 (international)

#### About MGP Ingredients, Inc.

Founded in 1941, MGP is a leading supplier of premium distilled spirits and specialty wheat proteins and starches. Distilled spirits include bourbon and rye whiskeys, gins and vodkas, which are expertly crafted through a combination of art and science and backed by a long history of experience. The company's proteins and starches are created in the same manner and provide a host of functional, nutritional and sensory benefits for a wide range of food products. MGP additionally is a top producer of high quality industrial alcohol for use in both food and non-food applications. The company is headquartered in Atchison, Kansas, where distilled alcohol products and food ingredients are produced. Premium spirits are also distilled and matured at the company's facility in Lawrenceburg, Indiana. For more information, visit mgpingredients.com.

#### **Cautionary Note Regarding Forward-Looking Statements**

This news release contains forward-looking statements as well as historical information. All statements, other than statements of historical facts, included in this news release regarding the prospects of our industry and our prospects, plans, financial position, business strategy. guidance on changes in operating income, sales, gross margin, and future effective tax rate may constitute forward-looking statements. In addition, forward-looking statements are usually identified by or are associated with such words as "intend," "plan," "believe," "estimate," "expect," "anticipate," "hopeful," "should," "may," "will," "could," "encouraged," "opportunities," "potential," and/or the negatives or variations of these terms or similar terminology. They reflect management's current beliefs and estimates of future economic circumstances, industry conditions, Company performance, and Company financial results and are not guarantees of future performance. All such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results to differ materially from our expectations include, among others: (i) disruptions in operations at our Atchison facility or our Indiana facility, (ii) the availability and cost of grain and flour, and fluctuations in energy costs, (iii) the effectiveness of our grain purchasing program to mitigate our exposure to commodity price fluctuations, (iv) the effectiveness or execution of our strategic plan, (v) potential adverse effects to operations and our system of internal controls related to the loss of key management personnel, (vi) the competitive environment and related market conditions, (vii) the ability to effectively pass raw material price increases on to customers, (viii) our ability to maintain compliance with all applicable loan agreement covenants, (ix) our ability to realize operating efficiencies, (x) actions of governments, and (xi) consumer tastes and preferences. For further information on these and other risks and uncertainties that may affect our business, including risks specific to our Distillery Products and Ingredient Solutions segments, see Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2019 and our Quarterly Report on Form 10-Q for the quarter ended September 30, 2020.

#### **Non-GAAP Financial Measures**

In addition to reporting financial information in accordance with U.S. GAAP, the company provides certain non-GAAP financial measures that are not in accordance with, or alternatives for, GAAP. In addition to the comparable GAAP measures, MGP has disclosed adjusted operating income, adjusted income before taxes, adjusted net income, adjusted MGP earnings, and basic and diluted adjusted earnings per share. The presentation of non-GAAP financial measures should be reviewed in conjunction with operating income, income before taxes, net income, net income, attributable to common shareholders and basic and diluted earnings per share computed in accordance with U.S. GAAP and should not be considered a substitute for

these GAAP measures. The non-GAAP adjustments referenced in the section entitled "Reconciliation of Selected GAAP Measures to Non-GAAP Measures," take into account the impacts of items that are not necessarily ongoing in nature and/or predictive of the Company's operating trends. We believe that these non-GAAP measures provide useful information to investors regarding the company's performance and overall results of operations. In addition, management uses these non-GAAP measures in conjunction with GAAP measures when evaluating the Company's operating results compared to prior periods on a consistent basis, assessing financial trends and for forecasting purposes. Non-GAAP financial measures may not provide information that is directly comparable to other companies, even if similar terms are used to identify such measures. The attached schedules provide a full reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measure.
